Introduction to Forest Health in Tennessee

**Thursday, February 16, 2023
11:00am-12:00pm EST**

**Webinar via
Microsoft Teams**

Insects, diseases, and invasive plants impact the health of forests in Tennessee. Join us for an introduction to forest health, including:

- Identifying forest damage
- Identifying host trees
- Overview of major insect, disease, and invasive plant issues that impact forests across the state

To register for this webinar, please follow this link:
